EDUCATION

MIT World Peace University (MIT WPU)

B.Tech in Computer Science and Engineering

- CGPA: 7.39

Pune, Maharashtra

Aug 2023 – Present

Campion School

Class 12th (Higher Secondary)

- Percentage: 88.2%

Bhopal, Madhya Pradesh

Completed April 2023

EXPERIENCE

Fiverr

Freelance 3D Artist

Pune, Maharashtra

Aug 2022 – Feb 2024

- Delivered professional 3D modeling, rendering, and animation projects for global clients, ensuring high-quality results and timely delivery.
- Utilized industry-standard tools including Blender, Maya, and Substance Painter to meet diverse client requirements across various styles and formats.

PROJECTS

Deepfake & AI-Generated Face Detection

March 2026 – April 2026

- Fine-tuned EfficientNet-B4 on 236,000+ face images spanning GAN-generated, face-swapped, and morphed manipulation types, achieving 99%+ validation accuracy.
- Built and deployed a full-stack web application with a FastAPI inference backend on Hugging Face Spaces and a Next.js frontend on Vercel, with real-time predictions served via REST API.

Mental Health Classifier using ML Alorithms

Feb 2026 – April 2026

- Trained and deployed multiple machine learning model for classification of mental health conditions using social media posts as input.
- Achieved 86 percent accuracy across 5 classes using NLP techniques. Developed suitable front-end and deployed on Huggingface spaces using Streamlit

Automated Code Quality Verification System

Aug 2025 – Dec 2025

- Developed and deployed a fully automated CI/CD pipeline on AWS integrating Jenkins, Docker, and SonarQube for continuous integration, testing, and code quality analysis.
- Implemented infrastructure automation using EC2 and S3, with GitHub as the source control system to streamline development workflows.

SKILLS

Programming Languages: C, C++, Python, Java, JavaScript

Data Science: Pandas, Scikit-Learn, Seaborn, Matplotlib, SQL, Postgres, Tablue, PowerBI

Web & Development: HTML5, CSS, JavaScript, Node.js, Three.js, React.js, Angular.js, Next.js, TypeScript

Cloud & DevOps: AWS (EC2, S3), Docker, Jenkins, SonarQube, Vercel, Render, HuggingFace

AI Tools: Claude, GPTCodex, AntiGravity, Cursor, GitHub Copilot, GenAI Tools

3D Tools: Blender, Maya, Substance Painter

Soft Skills: Problem Solving, Punctuality, Adaptability, Creativity, Teamwork

Spoken Languages: Hindi, English
